Alia

Alia is based on a simple concept, but wants to be interesting and different. The main element here is a glass ball whose shape is deliberately cut off at the sides to reveal the inside. This step opens up new possibilities for playing with internal and external space. The lighting fixture offers both a clean design, when the ball is complemented by a light source only, and a version where the ball is filled with glittering glass trimmings passing through it.

NOTE

ALIA is based on a cut, blown glass sphere and can be combined with chains of glass trimmings.

Lighting fixtures are shown here for the purposes of illustration only and the designs can be tailored depending on the client's requirements and technical feasibility. Likewise, the full range of surface finishes and colour designs may be more extensive than those shown.
